13. Illustrations

Illustrations, pictures and graphs, should be supplied with highest quality and in an electronic format that helps us to publish your article in the best way possible. Please follow the guidelines below to enable us to prepare your artwork for the printed issue as well as the online version

- **Format**: TIFF, JPEG, PDF: common format for pictures (containing no text or graphs); EPS: preferred format for graphs and line art (retains quality when enlarging/zooming in); MS Office files (Word, PowerPoint, Excel) are also accepted
- **Placement**: Figures, charts and tables created in MS word should be included in the main text rather than at the end of the document. Figures and other files created outside Word (for example, Excel, PowerPoint, JPG, TIFF, EPS, and PDF) should be submitted separately. Please add a placeholder note in the text [i.e., “Insert Figure 1”]
- **Resolution**: Bitmap based files (i.e., with .TIFF or JPEG extension) require a resolution of at least 300 dpi. Line art should be supplied with a resolution of 600 dpi.
- **Format**: TIFF, EPS or PDF, MS Office files (Word, PowerPoint, Excel) are also accepted provided they meet certain conditions. For more information, see below.
- **Colour**: Please note that images supplied in colour will be published in colour online and black and white in print (unless otherwise stated). Therefore it is important that you supply images that are comprehensible in black and white as well as colour (with a distinctive pattern or dotted line). The captions should reflect this by not using words indicating colour.
- **Dimensions**: Check that the artworks match or exceed dimensions of the journal. Images cannot be scaled up after origination.
- **Fonts**: The lettering used in the artwork should not vary too much in size and type (usually Times New Roman font as a default)
